

The International Day of Mathematics (IDM) is a worldwide celebration. Each year on March 14 all countries will be invited to participate through activities for both students and the general public in schools, museums, libraries and other spaces.

### Invitation to schools to celebrate the International Day of Mathematics 2023

One of the aims of the IDM is to convey the love for mathematics to young people and the message that mathematics is everywhere and that it is useful and beautiful.

Teachers are invited to celebrate in their classroom. Schools can also organize larger events.

The 2023 theme is:

## Mathematics for Everyone

Here are some suggestions:

- **Think of a stimulating activity to do in class.** You can find inspiration in the [classroom activities](#) section.
- Organize an activity **Mathematics in the Street**, for instance in the schoolyard.
- **Register that your school** is celebrating on the [IDM website](#), so that it appears on the IDM event map 2023.
- Use the [resources](#) (poster 2023, pins, etc.) or produce your own.

## Join us at [www.idm314.org](http://www.idm314.org)!

- The [IDM logo](#) already exists in **39 languages** and more will be added if requested.
- Participate with your classroom to our **International Challenge** announced beginning of January.
- **Participate in the live coverage** on March 14 (see the [2022 coverage](#) as a reference).
- Visit the [IDM website](#) and **share photos or videos of your activities** on social networks.
- If you wish to organize an **event outside the classroom** you can use the [material proposed on the website](#), available in several languages.
- Watch our **virtual ceremony** on 14 March 2023 with your class.
- [Subscribe](#) to the **IDM newsletter** to receive all the information in the run-up to IDM 2023.

**All schools around the world are invited to celebrate!**  
**We are here to help.**
